## Customer Reviews

This is a solid no-nonsense cello note speller. Great for a dedicated student. Younger students would likely enjoy something with a few illustrations or humor thrown in better.

very useful for a beginning cellist

Wonderful studt book.

I am new to the Cello, was looking for more information on tuning and playing. It is a good book to help you get started. It you don't have a piano and small keyboard will help you with the sounds you need to learn, especially tuning. A electronic tuner is ok when you are almost in tune, you don't want to pop your strings.

okay

This is great for a beginning 'cellist who is just moving from Suzuki to reading notes.
