Customer Reviews

The Theory & Technique books provide students with workbooks to reinforce the theoretical concepts they are learning in the method books. Alongside these examples are exercises that help develop piano technique. Keys for the Kingdom brings theory alive f

This book is excellent, giving a good foundation for students beginning on the piano. I appreciate the Christian emphasis very much. The only problem I've had is that these theory books for level A are very difficult to come by. Most retailers have told me that the publisher is out of stock. I certainly hope these books are not being discontinued!

I love all the piano books by Joseph Martin. This one contains fun pencil activities that reinforce the skills taught in the lesson books. Martin is a talented composer and his finesse shows even in the simple arrangements for beginners.
