The Desert Gardener's Calendar: Your Month-by-Month Guide

Synopsis

What's the best time to plant or prune? When should you fertilize fruit trees? What's the earliest date to set out tomato plants? Gardeners in the desert Southwest can't rely on books that try to cover the whole country. Summer heat, less rain, and shorter, unreliable growing seasons are important factors in the desert. That's why The Desert Gardener's Calendar can be essential to gardening success. Whether you're raising vegetables, nursing citrus trees, or just trying to keep your front yard looking its best, you'll find that this handy book gives you a valuable month-by-month perspective on the year. It helps you to focus on necessary activities and reminds you of simple tasks you might overlook. It's especially valuable for people who've moved to the desert regions from other parts of the country and follow old gardening dates that seldom apply to their new home. The Desert Gardener's Calendar is a guide to the maintenance you need to do to keep your garden flourishing and your landscape attractive throughout the year. It combines the month-by-month gardening and landscaping activities from two separate books by George Brookbank—*Desert Gardening, Fruits and Vegetables* and *Desert Landscaping*—and was created in response to readers who have found the calendar sections of those books especially invaluable. And because not all deserts are the same, Brookbank is careful to point out differences in scheduling encountered by gardeners in low- and middle-elevation regions in California and the Southwest. "I believe," says the author, "that if you use this calendar and let your judgment become more accurate with experience, you'll soon be doing everything right." Although that might suggest a day when you don't need this book, chances are good that, if you're a desert gardener, right now you do.

Book Information

Paperback: 168 pages

Publisher: University of Arizona Press; 1st edition edition (September 1, 1999)

Language: English

ISBN-10: 0816518947

ISBN-13: 978-0816518944

Product Dimensions: 8.5 x 0.4 x 11 inches

Although that might suggest a day when you don't need this book, chances are good that, if you're a desert gardener, right now you do.

George Brookbank learned landscape maintenance in his native England and as a Government Agricultural Officer in Tanganyika. He has spent nearly thirty years in Arizona, first teaching landscape maintenance classes at Arizona Western College in Yuma and then serving as an Extension Agent with the University of Arizona.

Good Book, easy to follow.

Rather antiquated account. Some useful info, but too much redundancy. All photos but the cover in black and white. No completed garden photos which make you wonder if anything he had grew well

at all.

Has been helpful in when to plant in our desert

I'm a Yuman Being, so this book is perfect for me! - and other Desert Beings, too.

This book is a good resource for the AZ desert gardener. Of course, AZ is an EXTREME desert, so you still need to take the extra heat and sun into account.

Great month-to-month guide specifically for the desert southwest. Each month tells you what to look out for, and how to prepare for the coming months. This book was somewhat limited in extent. Ruled margins provide a great place to take notes and personalize the book in respect to your own gardening experience. Overall, a good buy.

I really enjoyed the book and it's excellent condition. Delivery was swift and less costly than purchase elsewhere. The book is informative and yet simple to read.
