Customer Reviews

The Waterfalls of Colorado (The Pruett Series)

This is a wonderful guide to waterfall locations throughout Colorado, however it is not a very descriptive one. Nor is it in any way a photo book. The quality of the photos is poor at best and the descriptions are very biased as to what constitutes a good waterfall. However, if you are looking for a guide to waterfall locations this is fine and you can make your own judgements as to what is a good, great, or mediocre waterfall. Don't buy this for the ratings or the photos.

Good book for finding the waterfalls, no pictures in it. (that would be my complaint) but overall still useful to plan hikes and side trips while travelling. I would recommend it if you want another specialized travel guide.

Best book ever.

this is not a book of useful information if you want to find waterfalls. it is just artistic pictures of waterfalls w/o identification
