Wonderful, wonderful. I can't rate the quality of this recording from an educational angle, but for mere entertainment it cannot be beat. I mean, an English teacher might say it's lacking. But this series of audio study guides is one of the best. For anybody that likes books and love the classics, please buy these audio guides. I started off with one that I purchased years ago at a book store,

and I ended up buying almost every one of the tapes in the series. Each reader with their voices, inflections captures the true spirit of the book represented. I don't think any of the guides sold well, but for me, they are collectors item. Audio at it's best.
