Alice's Nightmare In Wonderland Colouring Book (Snowbooks Adventure Gamebooks)

Synopsis

Several years after the events of Alice's Adventures in Wonderland and Through the Looking Glass, Alice finds herself back in Wonderland and called upon to save the world of playing cards and talking animals from the increasingly deranged Queen of Hearts. But all is not as it first appears in the fluctuating dream world and soon Alice is battling to save herself from the nightmare that is rapidly overtaking the realm. Have you ever wondered what would have happened if Alice hadn't drunk from the bottle labelled 'Drink Me', or if she hadn't joined the Hatter, the March Hare, and the Dormouse for tea? Well now you can find out - and take part. In Alice's Nightmare in Wonderland Colouring Book - a companion to Jonathan Green's new Choosable Path Adventure Book - YOU decide how the amazing creatures Alice encounter should appear. Because this is your chance to team up as the colourist for illustrator Kev Crossley of 2000AD, KISS 4K and Warhammer 40K fame. Are you ready to join Jonathan Green and Kev Crossley and go back down the rabbit-hole?

Customer Reviews

I am here to give a completely different viewpoint from almost everyone else here. I love the book, it is dark and moody and mysterious, not for the faint hearted but a stunning book. Yes it is darkly shaded but that adds to the mood and you can definitely colour it in amazingly. I belong to a facebook page where lots of us are colouring from this book and everyone loves it. Several people had looked at these previous reviews and decided not to buy it until they saw some pictures from it

done. My review is buy it if you like something different but if you want to colour pastel shades and pretty this is not for you. I have added some completed pages as well as one I have started.

I absolutely love the graphics in this book. I wish there were more books like this out there. It reminds me of Alice: Madness Returns, which just so happens to be my favorite video game. I love the dark shadows.

This book is really fantastic! It has some very original artwork to color and I love the artist's use of lines it has a scratchy but intentional scratchy appearance. Like a comic book kind of, it's very graphic. I enjoy the darker images because it's a style I don't usually get to color. It's harder to find darker style coloring books. The images are not one sided, however to the left of each page is an excerpt from the book to accompany the page to the right so you can use markers and not have to worry about prioritizing pages to color or not color. I may even buy this book again so I can color pages differently the second time around.

I really like this book, the quality of the pictures are excellent. Yes they are quite dark and shaded but this gives the book a moody and nightmarish feel - that's what the book is all about. This book is perfect for anyone who wants something a little different to the norm. I also belong to a Facebook group colouring this book and I have seen some truly gorgeous pictures.

most awesome coloring book

As other reviews have stated this is a very dark coloring book but perfect for the colored pencil artist who like a little dark and morbid. i for one LOVE this book!

This IS a coloring book, albeit, a dark and gritty one. Not for everyone, but my younger sister loved it. If you dont like dark this isnt for you, but if you have an appreciation for unique artwork then you should give this a shot. I was gonna make photocopies of some of the pictures in here to keep for myself, but forgot so i guess i'll have to buy it again someday.

I saw a lot of complaints about the quality and sketchiness of the pictures but I decided to try anyway, I love the idea of a horror styled coloring book. It's very unique! The shading of the pictures really adds depth to the finished picture, and the story style is fun. I'm very happy with it, though I do

wish there was more pages to color, and perhaps a bit thicker paper. I did my first coloring with marker, but I think colored pencil (soft cored) might work out a bit better. There was quite a bit of bleed through with marker... again due to the thin paper. All in all, I would suggest this book to anyone looking for a different and unique coloring experience, I love it!
