I am a fan of the flash and bones series so i thought i might as well try this. I was not disapointed. The book is slow paced however, and I think a childrens book should be this internnce and dark. The series had made me gasp in some parts, and i am not a litte kid. i dont know what 5-10 year olds usually read, but i think this is a bit on the dark side. I would totally recomend it for young teens, and any customer worth their bucks should buy this.

... I feel like it would've been nice if more stuff happened... I mean, she basically went to the village, decided it worked, and went back and killed an enderman. Please make it more eventful next time :)

Can't wait till your next book in the series comes out!!Hope it isn't long
