Customer Reviews

The Canadian Rockies west of Calgary and Edmonton in Alberta Province contain some of the most spectacular scenery and outstanding outdoor recreational opportunities in North America. Much of the area has been preserved in a network of Canadian National and Alberta/British Columbia Provincial Parks. Gem Trek Publishing of Cochrane, Alberta, provides a series of combination map and travel guides at multiple scales that are invaluable for exploring the area. The "Banff and Jasper" map is a one-over-the-world (actually, 1:400,000 scale) guide to Banff, Jasper, Yoho, and Kootenay National Parks. One side of the mapsheet provides large-scale coverage of the Canadian Rockies, with emphasis on the Trans-Canadian Highway and the key roads that get the visitor into the four parks, whether arriving from Alberta or British Columbia. This mapsheet also highlights some of the principal points of interest and visitor support infrastructure. The other side of the mapsheet has inset maps of Western Canada, Edmonton, Calgary, Jasper, Banff township, and the key highway stop at Lake Louise. There are indices for campgrounds associated with Banff, Jasper, and Lake Louise. The "Banff and Jasper" mapsheet lacks sufficient detail for, say, navigation on foot or by bicycle, but it does provide the necessary scale for navigating across a huge swath of Canada which has fairly limited human infrastructure. It is very highly recommended, whether new or used, to the traveler looking to explore the Canadian Rockies.
