## **Customer Reviews**

Loved this book. So many helpful tips and suggestions. Especially great if you are new to owning a dog and need training ideas.

Great guide for those who get a puppy. Should be read before deciding, since it has a lot of valuable information on choosing the right dog. Taught me a lot of things I don't know but should when caring for a new puppy.

Extremely helpful, worth every penny if you follow the advice. I refer to it frequently.

Informative and down to earth. I have given several as a gift.

I've read a few of the for Dummies series and have to say that some of them have disappointed. But

not this one! Puppies for Dummies is excellent, full of useful information, written in a warm inviting tone. We got a rescue dog from the Humane Society and the woman there who told me she has read hundreds of dog training books, recommended this one and I can see why. It's comprehensive without being dry. I have felt that the dummies' series padded some of the books, but this one doesn't feel repetitive or padded at all. Each chapter was interesting and you can read it linearly or jump to the chapter/section that is relevant for you.

I'm getting a puppy this spring (nearly 12 year old schnauzer died in late December 2012), and wanted to brush up on my puppy knowledge. This book has the basics, and some new information since the last time I went at this. Overall, it's a good reminder, and for the first time puppy owner, it's good information.

This book was extremely helpful in working with our new puppy. I particularly enjoyed that I could open to any section that addressed the specific issue we were dealing with and quickly get some helpful tips instead of having to read through the book front to back in order to find answers. The layout is clear and the book is an easy read.

I have never had a puppy before, but this I read this book from cover to cover and feel very prepared now. The instructions and suggestions are clear and easy to understand. Parts of it - like choosing a puppy - were a little irrelevant for me, but even those sections were informational.
