I love love love this Bible study! It has plenty of review, variety of activity, and is biblically sound. My youngest (1st grade emerging reader) needs extra time with each lesson so we simply set a time that we start and finish and go as far as we can focusing on understanding and retention of the truth vs trying to get through it in one day. My older kids (4th and 6th grade) have no trouble completing one lesson each day. The teacher review book is helpful.

These are great for children. I already had one for my son and purchased this one for a friend. It really gets the children into the Bible in a fun and exciting way.

So great to have a study for the kids that follows Kay Arthur's Precept Study for adults! It's pretty fun and, at the same time, challenging.

I really like this study because you are looking at Scripture over and over using a variety of methods--drawing, filling in the blank, and marking the Scriptures. This really helps us learn. I also like that we get an opportunity to memorize Scripture. The storyline with the characters Max and Molly is distracting, but we ignore that and move forward. Excellent study if you want to pause and digest the Scriptures.

This book arrived in perfect shape and a great price. It arrived quickly as well. These books are a great way to help kids learn to study the Bible and to also be able to study it on their own. They also are great for a group setting like a Sunday School class or a homeschool group. They engage the child in various ways so they stay interested, and what they learn is amazing.

it is good

This is an excellent way to begin teaching children how to study a book in the Bible. We have enjoyed it and learned a great deal!!!
