Rebecca Atwater Briccetti is a gardener and writer. She lives in Maine.

I received the book - Taylor's Weekend Gardening Guide to Cold Climate Gardening, very quickly and as described. Thank you

5 star. my brother like it , great . I quite enjoy this product. I like to collect kitchen utensils but usually shell out for pots and pans and buy my knives at thrift stores. For the price, this product has been super useful. great.

It was the book I was looking for. Contains a significant amount of helpful information. In particular, the information on which items complement each other in the growing cycle. I would definitely recommend it for the home gardener.

Zone 5 is not cold climate gardening! Book is a waste for those who truly live in cold climates.
