## Customer Reviews

I got this for my 9 month old and my 4 year old. The pages are sturdy enough for my 9 month old to flip the book around and turn the pages. My four year old love to push the buttons for sound. The sounds are great and loud which we like. I like that this book has more facts about the animals and not just the sounds and, "This is the bear". Good facts, good sounds, and good fun!

Books for my great grandson that already loves books. He really loves them.

Super cute but scares my 11 month old. Lol poor little guy... He get use to it eventually :)

The variety of animals was great. A little bit scary for a young toddler! Biggest problem was it kept making sounds even when put on a shelf. My son-in-law had to take the battery out to keep it quiet.

Very cool that they use real animal sounds but it scared the poop (literally) out of 1 year old. Have put it away for now...lol!

She loves the book, but the battery was very short lived.

Large book with great animal sounds and pictures! Sturdy pages for little ones.

Great book! The sounds are very realistic and the pictures are great too.
