I had a chance to sit down and really pour over my copy last night and it is a gorgeous book and I love the way it is set up for an entire party in each section. If you haven't picked one up yet I highly highly recommend it. It will be my "go to" gift this holiday season. Annette can't even imagine how over the moon you must be to see all of your amazing ideas in such a beautiful bound package.

Really enjoy the book and the ideas. I collect party/entertaining cookbooks, and read them like a novel. This book has several good ideas for decor, etc., the recipe's look great but are more involved than I have the time for, are probably too difficult for a kitchen novice.

I expected more from this. It had nice pictures but I really did not find anything inspiring.

Besides the recipes being easy to follow and I recognized the ingredients because sometimes I can't even pronounce them, the directions for the tablescapes were a breeze to understand. Love this book!

like it, good ideas
