## Customer Reviews

Interesting book about Laos. It is also a reference book and a collection of interesting facts about this wonderful country. Many topics are described, even such as transport and cuisine. Funny, but there is a little phrase book from the most important phrases. It was interesting to read about this wonderful country I recommend!

Terrific book on traveling to Laos....I am considering it for my next vacation as it is a very interesting place to go and extremely beautiful...highly recommend this book to anyone interested in going there or learning about Laos...

This is a really good tourist guide to Laos. It covers a huge amount of detail outlining such things as the history of Laos, its culture, its festivals, its currencies and its major tourist attractions in quite some detail. On the downside the writing style is flat, so it's not an exciting read, but if you're interested in travelling to Laos it's jam packed with useful easily explained information! Definitely worth a look for anyone who is interested in visiting the country!
