Fantastic! I've been researching planners, etc. and this is the perfect supplement for my daily planner. I love that you can track water and exercise and it really inspires you to accomplish your goals. It's a total bargain too. I highly recommend it!

I take this book everywhere with me. It's helping me break down my goals and be more clear. I so prefer writing in books rather than a computer and this helps my creative side.

Love this planner and the whole philosophy behind it. Tons of extra material available to help you deepen your experience AND easy to use right out of the gate.

Really liked how its spiral but I kind of like this years book better and wish that one was spiral but overall I like it and can't wait to use it.

I like it, just a little disappointed that it doesn't provide a break down about the different sections. Love that's it focuses on 12 weeks at a time but would be better for me if I could work on each goal at the same time for 12 weeks vs breaking each goal into 12 week increments.

Love it! Exactly as it is advertised! Thanks!

This is my favorite planner for my business. It made it easy to focus on the strategic goals I wanted to set for the year and break it out into manageable sprints. This planner has everything you need in an easy to use and streamlined format.

Love this planner and am so excited to start using it to get my 2017 goals in motion!
