Seloc Marine engine maintenance and repair manuals offer the most comprehensive, authoritative information available for outboard, inboard and sterndrive engines, as well as personal watercraft. Seloc has been the leading source of how-to information for the marine industry since 1974. Designed and written to serve the needs of the professional mechanic, do-it-yourself boat enthusiast, instructor and student, these manuals are based on actual teardowns done by Seloc's editors/authors in our on-site facility. Recognized and used by technical trade schools as well as the military, every manual provides complete coverage on everything from basic maintenance to engine or drive overhaul; featuring simple to follow, step-by step, illustrated procedures, hundreds of

exploded drawings, photographs and tables, maintenance intervals, troubleshooting sections, accurate specifications and extensive wiring diagrams. New on all later manuals is an extensive skill rating system for each procedure which also includes special tool icons.

Gotta have for working on the motor.

wrong manual, On the description did no say about the motors, but only cover 1.25-70 HP.

Easy to follow instructions.

Absolute must have if you are a back yard mechanic.

lots of details and range of motors this manual. just be sure you're on the right one.

Useful info for basic Merc maintenance. Most of it was above my head and not stuff I would try to do but the basics are all covered

Good book. Helped me figure out the problem with my 60h. Book covers many many models. Recommend to buy before you need it.

very good help when you dont know nothing just about any info is more than welcome BRW
