Customer Reviews

My son was issued this book in his high school History class. Someone stole it from the locker room, but we were able to replace this book and order a spare for less than \$1 each and they were in better shape than the one he was issued! Thank you for hooking us up with this vendor!

Just what I wanted. Using it to tutor grand daughter. In good condition and a good price.

I got the product I ordered and it came in better condition than I expected. The price is great. Thanks!

Product is what is expected. The text book did not have any missing or torn pages in the entire book.

Good Condition, as described.

CAUTION TO BUYERS: I ordered a text book for my daughter that was labeled "used-acceptable". What I received was a pile of pages without a binding, cover, complete with missing pages(even the index) and even the back cover is peeling back and in pieces. The whole book smells like it has sat

in a mold. As a matter of fact it is making me sneeze. I am appalled that someone would even try to sell this pile of pages labeled "text book" it clearly does not fit the profile for a book. I am still awaiting an email from the seller to send it back for a FULL refund. This was a waste of my time and money. I hope will monitor this seller.America: Pathways to the Present

Very poor condition , not as advertised, should have been tossed not resold.

It had been suggested by another mom to check out .com for a duplicate history book for student to have at home for two reasons. One to keep from having to carry the heavy book back and forth from school and second to have your own book you can make notes in margin, highlight, etc. So it was the perfect solution for my daughter!!
