# Manual Of Internal Fixation In The Cranio-Facial Skeleton: Techniques Recommended By The AO/ASIF Maxillofacial Group

## Synopsis

This manual provides comprehensive information on the surgical techniques in internal fixation of fractures, in restoring tumour defects, and osteotomies in the craniofacial skeleton. Through detailed and instructive drawings together with clinical situations shown on x-rays it offers important guidelines for the surgeon in the operating room. The techniques are based on the general principles developed and continuously refined by the AO/ASIF group. This manual constitutes the written guideline of the surgical techniques as taught in the AO/ASIF courses and workshops throughout the world.

## Customer Reviews

Good book. Informative. Gave it lower stars because when I bought it used it was supposed to be in very good condition. However, has writing and underlining throughout it. Not good.

An extremely useful book that summarize the current methods recommended by A.O. on internal fixation of craniofacial skeleton. I think the first chapter on the basic concept and various methods of internal fixation is particularly well written and must be read. The schematic drawings for various fracture fixation give a strong visual impression on the fixation technique. Everybodies who are interested in craniofacial fixation should kept a copy for quick reference.
