Customer Reviews

This little bundle of goodness just arrived on my front door and I am smitten! The architecture and design is absolutely beautiful, and the photography is stunning. The spaces reflect a variety of design styles, yet there is a cohesiveness that makes each of the come together in a very unified way. There is a nice mix of colorful and neutral spaces, and each space flows gracefully into the next. Great inspiration for anyone interested in home decoration, or for anyone interested in art and travel. I also really appreciated that it was not obvious at-first-glance where the interior was located. A validation that good design is very universal! I do not own Volume 1 of this book, but I will be adding it to my list. Another beautiful book by Taschen.

I love interior design and found this book quite dull and disappointing in choice of things it wants to show readers. Plenty of the interiors are not so exceptional or inspiring. Some actually lack originality and are banale. I am considering returning it. The concept is good though, as well as the size ...

An excellent book. With more than 700 pages, it was much more than I expected. I have ordered volume 2.

Beautiful interiors. An amazing book when you're in the process of furnishing your brand new home and you change your concept every 2 days :)

Taschen provides a wonderful collection of reference books. My daughter is an interior designer and we enjoy looking at their various publications

Very interesting and good quality printing. It would be better un a larger format and including spanish language (as it includes french and german). In any case, i recommend It.

Great libraries photographed beautifully. Great Read
