"The cupcake is dead. Long live the pie!" NPR's Weekend Edition, Jan. 2, 2011

Morgan Greenseth and Christy Beaver own the Mini Empire Bakery in Seattle where they supply restaurants and cafes with cupcake-size pies.

Mini Pies: Adorable and Delicious Recipes for...This is an adorable recipe book for pies. I wasn't expecting the book to be so small in size; but that is ok since I love to cook and Bake. I was a 4-H leader for 25 years in baking and other subjects. I loved the baking the best and one of the last five years I taught baking I had a 9 yearold girl that I taught how to make mini pies. That year I taught her to make mango mini pies and she got Grand Champion at local fair and Grand Champion at state fair. The year before I taught her how to make muffins when she was 8 and got grand champion at local fair and 4th at state fair. This package came on time and the book has some really good recipes that I will try. I wouldn't hesitate buying this recipe book for a young girl or young bride or anyone that would like to learn how to make pies.

I tried some of the recipes and have problems with the baking time. After working exactly as the book told me the pies were burnt. I measure the temperature of the oven with a temperature measure and it was exactly the right temperature. But after finding out what is the right one it is fun to make this pies

The pictures are wonderful, the recipes sound great. The only problem I have is that in some of the recipes, the amounts are confusing - for instance, in the recipe for Susanne's Lemon Meringue, it calls for 0/0 cup sugar. There are several instances where measurements show up that way. I'm hoping that at some point there will be a correction, either through their website or (even better) a version with corrected measurements. Once that happens, this will be a killer book, I think! For concept and for a nicely photographed book, I'm giving it 3 stars. For complete directions, I'd bump it to 5. UPDATE!!! A fix is in the works for the broken fractions on the Kindle version! Based on that info and the authors being so awesome, this HAS to be a 5-star rating! Update on 11/17/2012 - the fix that was in the works has never taken place. I've had other Kindle updates on other books I've purchased, this one is still a mess. So, if you want this in Kindle format, be aware that there are still recipe amounts that are missing.

Don't waste your money on this book. I should have returned it. We haven't found one thing in it we want to make. If you are making mini pies just use a regular recipe and divide it into small pie dishes or muffin cups.....you will save some money and you will be using a recipe you will enjoy.

Adorable book, and recipe's are spot on! It's great they include VEGAN options. So many pie recipe's out there aren't vegan friendly and this just made my day! While I personally am not vegan many of my friends/family members are and these tasty little pies are to be favors for my rustic wedding and using local and keeping it vegan is important to me! Overall, tiny book but it's loaded with pies and ideas! Personal favorite... try the bourbon pecan and for spice add a few mini dark chocolate chips.

Gave as gift

love it!

I was hoping for another book with recipes for my mini-pie baker. But this is for mini pies baked in a normal oven.
