Customer Reviews

Charles Phillips is an established writer of popular history who has a keen interest in British history and architecture and the story of her Royal Family.

An excellent history with beautiful artwork references. The latter part of the book on royal houses, castles and other locations is an added bonus.

Kind of a nice book with lots of pictures, which is what I wanted. Not sure I believe all the information contained within, but I definitely recommend the book - it's a great read and the pictures are nice!

So much information!! Wonderful history and fills in gaps in my family tree, but very small print.

Great resource book. I love it.

I was given this as a gift and I can't believe the amount of information and the wonderful pictures

(some I've never seen before). The BINDING is GOOD, better in fact, than another more expensive monarchy book I own. A BIG plus is it covers ancient monarchs (even a bit about very old Saxon Raedwald). Most monarchy books start with William the Conqueror, but the older stories are fantastic too! The price is Incredible!!! In short, if you like British history this is a must have.. get your stories straight or read into wonderland.
