Game Of Thrones: Prophecies And Dreams (Game Of Thrones Mysteries And Lore Book 2)

Synopsis

Full of daring theories and fascinating tales from the world of Ice and Fire, Game of Thrones: Prophecies and Dreams is a riveting account of the series' most captivating cases of hidden magic, prognostications, dreams and visions. While HBO's international blockbuster has left most of these out, this book will delve deep into the hidden magic spread out across families, backdrops, religious beliefs and even entire continents of a Song of Ice and Fire. From Jamie Lannister's dreams of nude Brienne to Jojen's Winterfell Drowned and to Quaithe's Dark Words to Daenerys, this book will leave no stones unturned, no questions unanswered. A perfect gift for fans of the TV show as well as the book series, Game of Thrones: Prophecies and Dreams serves as both an introduction and an accompaniment to the existing media. If you want to find out how the World of Ice and Fire came to be or what might happen next, this is the place to be! Read for FREE with Kindle Unlimited! Note that the book is constantly updated!

Customer Reviews

It appears that this book didn't even go through a rudimentary spell checker. Not recommended.

This is, by far, one of the worst books I have ever seen published.1. Grammatical errors throughout the entire book2. Referring to characters incorrectly3. No cohesive flow from one chapter to the next, the book refers to itself as an e-book4. Theories are not backed up with sufficient evidenceI do not recommend this book to anyone, I believe this should be pulled from publication and CraftWrite Publishing should reimburse every single customer who purchased this sorry excuse for a book.

Oh my God! I always wondered what it takes to publish a book...this is proof that the answer is: NOT MUCH! Definitely not a proof reader, nor a spell checker, nor a grammarian. Definitely not quality materials, or art. Definitely not talent. There is nothing of any value in this book. It snacks of a teenager's essay on a TV show they watched. Save the earth and avoid this poor excuse to produce paper.

A lot of tidbit you won't see on TV!If you download the ebook, which is free for Kindle Unlimited members, it has a note that states that the book is constantly updated, so the audio and print may not match up.The audio does not cover the last 13 episodes of the series which are being split into two seasons. The first half just concluded and the second half will play out next year.The audio covers all that has happened so far in both the books and the television show. (see note above) The TV show is ahead time-line wise of the books, as Mr. Martin has deadline issues. There are still 2 more books due in the series.This is a review of the various prophecies and dreams within the world of The Game Of Thrones as well as the books the show is based on. Many of these are not covered on the show as there is just not enough time to cover it all. The show-runners for GOT have expressed their desire to try and stay close to the over-all themes and stories from the books, so the unseen foreshadowing from the book should still hold true for the show as it does in the books. There are some specific visions shown to Daney that I find most curious! Plus the most delectable one told to Cerci having to do with her being murdered by her younger brother! In her arrogance she has seemed to have forgotten that Jamie is actually her younger brother too! Even though I knew this already, I still like hearing about her demise because I really hate her. Leanne Yau presents the information in a clear and precise manner. She is very easy to understand as well as being pleasant to listen to. I give this a 5 for what it is, but also want to put a warning out there for those that are just starting the series either in print or TV, there will be spoilers. If the spelling and grammar errors indicate the validity of the story, then there is no reason to believe any of this nonsense.

I have enjoyed this series so much that I would tend to overlook areas that I thought might be better explained later on. I am even happier I didn't wait for it! Very condensed package with a wallop of information. I recommend these 2 books to anyone that is a GOT fan!

This book was sort of cool, I just needed a GOT fix, but it was so full of typos it was hard to read!

Most of the content of this book has been discussed thoroughly on reddit and other internet sites. Nothing new. Furthermore, the grammar, punctuation, and spelling suggests there was no proof reading or editing (just like internet sites).
