Customer Reviews

It came earlier than expected and was in perfect condition. It was fantastic spending only \$30 rather than the \$120 those resellers were demanding. If you like Persona 3 get this book. Everything in it is gorgeous and beautifully printed on high quality paper.

Great artwork and a look into the concepts that became the iconic characters of Persona 3. While I would have loved to see some artwork from Persona 3 Portable as well, I know the original Japanese book was made prior to the Portable version.

Featuring a ton of concept art and character designs by Shigenori Soejima and lengthy commentaries by Katsura Hashino, it's a great addition to any geeky collection :) It's a great addition to my bookshelf.

Love this book worth every penny. If you are a Persona fan. The book itself has a great feel [texture] to it.

Beautiful artwork, and lots of interesting information on the character/persona designs. As this is my favorite Persona game, this was a must buy for me.

If you like Persona 3 this is incredible. It gives a lot of detail into the design process and explains the intentions the design team had with each character.

About as good as I expected having owned the P4 and P4A art books before this one. For reference, the only difference in quality is a flimsier paper cover. It's a little bit shorter, but still plenty to look at and the art itself is great, of course.

Really nice.
