## Customer Reviews

I don't like to give someone such low marks, but I was sincerely disappointed. Bob appears to be a great guy with some interesting stories, but there are too many typos, items blacked out on kindle, stories that were not only unnecessary but dragged on forever, a number of repeated sections/stories/paragraphs, and so on. Lots of fluff. I've been to the Philippines many times, am married to a Filipina, and am a businessman. I was hoping for a little insight on business there since I'm seriously considering retiring there, and would like to continue my entrepreneurial ways. This book is ONLY for those who are very green in both business and the Philippines, and for those who have little to no money and are looking for a job or a cheap startup that essentially is buying a job. Even then, I think I'd find little value in this book. He gives way too many stories about various failures, wasted money, being cheated, and so on....which may have some value for the naïve, but not for anyone with any intelligence, business savvy or enough money to startup something more than a food cart or a piggery in the outerlying provinces. I will say that his book on ebay/ is a bit more readable and informative....and, for 2.99 or whatever I paid, I guess it's no big loss.

since retiring and moving to the Philippines I have been bored...looks like a way to relieve boredom and make a few dollars er peso at the same time....very informative as are ALL of Bob's books....

Easy to read and understand. Found the information enlightening.
