This is a fairly cool Steampunk calendar, considering how few there seem to be out there available this year. The only thing I don't like about it is the months days overlap. You see a week or more of the next month at the end of the current month, this can confuse dates with just a glance. I assume that this also might be an advantage for some people who would like a view of the next month's first week without having to flip the page. I suspect the truth of it was just to be different, but Steampunk isn't just about being different.

Wonderful steampunk illustrations. I find the Llewellyn Steampunk Calendars serve as great inspiration keeping me in the steampunk mood year round. Many of the illustrations are whimsical imagining a yesterday that never was and making me long for the stories that would go with the paintings.

Being into steampunk I just love this calendar. Hope there'll be another next year. Well worth the price and big enough so you can write notes on each day square.

Product is exactly as advertised and arrived slightly early! Excellent transaction!

Been into steampunk forever. This calendar captures the flavor.

The artwork is very good and the layout is as well.

It's a calendar. Great steampunk pictures.
