Parakeets And Budgies - Raising, Feeding, And Hand-Training Your Keet

Synopsis

I have owned parakeets (also called budgies or keets) since I was a tiny toddler. I have photos of my pregnant-with-me-mom's parakeet (named Gandalf), so she owned parakeets even before I was born. Sometimes I've had four parakeets, sometimes just one, but in one way or another parakeets manage to wiggle their fluffy ways into my heart. This book is a compilation of my years of experience, not only with my own parakeets, but also with helping the tens of thousands of parakeet-loving visitors who come to my parakeet forum. Between the group of us we've probably experienced everything there is that could happen to a keet, good or bad. There is information on choosing a parakeet, feeding a parakeet, and full step by step instructions on hand training your parakeet. You can learn about parakeet activities, parakeet toys, and parakeet socialization. While the web is of course an awesome resource, often there are times that it's simply easier to read an organized, sequential set of instructions on an e-reader. Also, it seems that web access goes down during emergency situations! Having an ebook version of those "what to do" instructions available on your e-reader has saved many a keet owner. Think of it as part of your emergency care kit for your beloved pet. If you have any questions, always feel free to email me! I'm happy to lend a hand with keets. Enjoy!

Lisa's parents had parakeets before she was born. For most of the past four decades she has raised parakeets, enjoying their friendly presence, singing to them, playing with them, and making treats for them. Lisa runs a parakeet-focused forum at LisaShea.com

Great book! Walked through it with my 5 year old grandson who had just gotten his first parakeet! It had all the basic information required for him to care for his new pet and I find him reading it often just a refresher!

Enjoyed the read. Great ideas for toy ideas too. Good training advice. Great little book with smart info for anyone interested in parakeets.

I wasn't ecstatic about the content of this book. It does serve the purpose of explaining a lot of points and history of raising budgies but the target audience is perhaps a teenage level.

Great book about parakeet.

Great book

I have had parakeets in the past, but after reading part of this book, I have decided not to venture into this pet again. Also, much of what is written is repeated over and over again.
