Customer Reviews

"The longer format lends itself to the complex subject matter, and the cheer and humor with which Jack and Annie face obstacles, along with their thoughtful contemplation of what they have learned, prevent the story from being too scary for its audience. Fans of the series will be delighted."

This review is from my 9 year old son who was very excited to read this book as soon as it came out after reading the previous 52 fiction books and all the non-fiction companion guides:It can be hard to understand the first few chapters. As the story goes on it gets exciting. It is different from the previous books- their mission is a different type than what they did in the Merlin or Morgan missions.SPOILER WARNING: They are looking for a main character from the Merlin missions in WWII

Our eight year old son has read almost all of the Magic Treehouse books and we're all so happy that he's able to continue to read new stories as he grows older. Such a great idea that she decided to write for older children. He's hoping he writes a series for teenagers by the time that he's a teenager!

I have read all of the Magic Tree House books to my son. We are always waiting for new books in the series to come out. This new Super Edition is an excellent book. I believe that all of the books that Mary Pope Osbourne has written are excellent. They all offer history lessons that are very educational to youngsters. They are well researched, and very entertaining. My son loves these books, and I really enjoy reading them to him. This book opens a window into what it was like during WW2 in France.

My son loved the book and the additional detail provided in this Super Edition of the Magic Tree House series. It was great to see Mary Pope Osborne take on some more mature material and she did an outstanding job of balancing reality with a pre-teen level of exposure.

My daughter LOVES this series, we have been reading it since kindergarten and I have to admit, I love them as well! She is in first grade now and re-reads the collection on her own. Highly recommend.

Bought as a gift and he really liked it. I would definitely recommend this product.

My grandson and I enjoyed this latest adventure of Jack and Annie. We were entertained and we both learned more about D-Day. I found a video of the actual invasion on youtube after finishing the book, so we learned even more!

My daughter loves it, even if I think she is a little bit small (6 years) to understand all. But it was good because it was the first time we talked about the big world war. I bought also the audio book.
