Customer Reviews

Mr Kelly has a wonderful writing style. Very friendly and personable. It is as if you have a personal mentor walking beside you the whole way. The material itself is simply wondrous! A must have for any initiate of the LHP!

Awesome. I personally disagree with some content in the book, but you can learn A LOT of the important stuff. Very useful.

I really liked this book!

I find this book interesting and there are quite a few things to learn and discover. There are so many books about runes now - but this one is a worthy book.

I Love Dragons and runes. What else?both together, giving me a wise look.This book puts together,theory and practice.

I've read about halfway through this and find it a very fascinating take on the runes. Utilizing LHP thought through "runeology". Well done.

Fantastic text from a most reputable and qualified author

I got this book because I wanted to know more about the historyof the Runes. I had read "Slave Species" highly recommend thisbook if you want to change your view on how humans started) I found the book interesting, gave a lot of detail that Icould compare to the Slave Species book and only gave more reasonsthat showed that the information in the Slace Species book was correct. I ended up ordering his earlier book, but was not happy with it asI thought it would go deeper into the Rune history but it did not.However it did turn out to have lots of great exercises for selfimprovement and inner workAll in all I can recommend this book if you are interested in a deeper view of Rune history.
