Best maps I've found for recreational areas. Quality printing, nice paper, accurate and full of information. Only wish I had more of these...

Very informative

As with all the trails maps this is well made on quality waterproof paper, and very detailed. What i didnt realize is that this is a water trails map not a hiking trails map. I will still put it to use, just not what I expected.

This is an excellent map that is really helpful if you are taking a trip down the river and want to do more than simply float the river. It provides details of the surrounding areas so you always know what is around you.

Map is nice and heavy material, love the detail.

\* \* \* \* \*this is a great map to have shows great detail!

I'm sure this is a good byways map, but it's a map of mostly roads. I needed a map for the OZARKS - like the actual forest. I could have printed a google maps if I wanted a road map. Pretty sure the maps are last updates in early 90s not a huge issue.
