Ron Adkison (deceased), an avid hiker and backpacker, began his outdoor explorations at age six. Since then he has logged more than 12,000 trail miles in ten western states. He has walked every trail in this guide, most of them multiple times, to provide precise, firsthand information about the trails, as well as features of ecological and historical interest.

This is a good handbook for the GS/ENM region, but I'm only giving it 4 stars because it didn't contain any information about the hike I was trying to research (Death Hollow). There is an overview of how to take the Boulder Mail Trail to Death Hollow, but there is no information about the stretch through Death Hollow to the Escalante River. We had to rely on printouts from someone's blog to get us through that section of the hike.

maps and guide information were very beneficial for several planned hikes into Southern Utah slot canyon country, saved a lot of mapping via google and gave good area info

Good

Good book

An excellent hiking guide to a little-known area.

Great reference book, Falcon guides have good pictures, tips, and maps.

Interesting hikes but not located where we were.

The author(s) did an excellent job describing details. I feel much more confident of finding my way.
Thanks for the tips.
