I chose this particular score (the Schirmer edition) so I could perform it. I like this product because it's something that I will use more than once! It is functional and completely accurate. It also has a table of contents which proves itself to be quite useful. Thanks so much, Olivia P.S.: -mint condition (brand new) -easy to read (0% confusion, good layout) -pages difficult to damage -excellent quality beyond expectations -still in use -easy to read (no "decoding" required)

There are a few typos in the music (mostly word underlay/text) and absolutely NO measure numbers. Other than that, a great musical score.

This edition is complete and fairly easy to read. Measure numbers would be a welcome addition. Eliminate the distracting English.
