Customer Reviews

Kathy A. Zahler, M.S. (Freeville, NY) has authored or contributed to textbooks in language arts, literature, and mathematics.

This text was filled with good information about the components of the test as well as all the types of analogies. I really appreciated the answer explanations to the practice questions, they were very

helpful!

Great examples and explanations

The study guide that the book has is the only thing I liked. The practice tests were very challenging compared to other books that I have. For instance, on other books I scored higher and for this one I did not.
