# Ultimate Guitar Play-Along Led Zeppelin, Vol 1: Play Along With 8 Great-Sounding Tracks (Authentic Guitar TAB), Book & 2 CDs (Ultimate Play-Along)

## Synopsis

All new transcriptions and tracks drawn from more than 30 years of documentation, interviews, and recorded footage. These TABs and tracks deliver unprecedented accuracy and insight into the guitar-style of Jimmy Page. This book includes complete music notation and TAB transcriptions to eight Led Zeppelin classics. There are two versions of every song on the included CDs: an instrumental sound-alike recording, and an instrumental accompaniment track (without guitar) so you can play along. When you use the CDs in your Mac or Windows-based computer, the TNT (Tone 'N' Tempo) Changer lets you easily loop sections for practice, slow tracks down or speed them up without changing the pitch, change the key, and switch back and forth between full instrumental and accompaniment tracks. Titles: Black Dog \* Communication Breakdown \* Dazed and Confused \* Heartbreaker \* Immigrant Song \* Rock and Roll \* Since I've Been Loving You \* Whole Lotta Love.

## Book Information

Series: Ultimate Play-Along (Book 1)

Paperback: 72 pages

## Customer Reviews

This is an excellent book for those wanting to learn some Zep songs! The tab is accurate for those, like myself, that don't read music (yet). The CDs are nice as well, providing a "cover" version of the song and a version with the guitar track removed so you can practice. What really shines about the CDs is the fact that you can loop sections of the music so you can get it down and slow down the track without changing the pitch! You can also change the key. Pretty nifty! Definitely worth the cost!

The book is good and the instrumental tracks are great to play along to. However, if you plan on using the TnT software and have a Mac that is older than 2005, you're out of luck. They wrote that software to be used with Macs that have Power PC processors. For context, Apple moved away from Power PC processors to Intel in 2005. That's 12 years ago! If you don't want to update your software Alfred, then don't advertise it and include an outdated piece of software with this book.

I've only made it through a couple songs but so far seems to be accurate. The Tone N Tempo feature is why I bought this and it's worth the money. Being able to start off slow and work my way up to Jimmy Page speed is the best way for me to learn. I'd give it a 5th star if it had a few more songs for the money.

What can I say, It's Jimmy Page's, my Idol, Guitar Guru, since the 70's. Man, if only then I could have obtained the music sheets and books, WOW! I certainly would of never dropped playing guitar!!!! And it's thanks to his work being available, now I'm getting back into the groove. YEA BABY!!!!

My husband plays guitar & loves Led Zeppelin, so naturally he loves this book!

Perfect transcriptions. Great backing tracks. Just perfect!

If you're familiar with the Hal Leonard system and like them than you'll find this book very helpful. A bit difficult for a rank beginner like myself but the added CD really helps and I should be sounding just like Betty Page in no time....and with the Hal Leonard system I might even sneak in a few Jimmy Page licks as well.

The CD accompanying was very well put together/produced. The tab laid out simple and easily readable. This makes the Zepp stuff accessible and should be able to be understood by even a beginner at rock guitar. I will be buying the 2nd volume soon. Recommend this!!
