## Synopsis

In the first place, what do we mean by life? We mean that which we see, feel, hear, touch or taste, and the reason for it. We must have come into contact with all we know of life. We have already found what life is or we could not have had any of these experiences. "In the beginning was God" or life. Out of this life which is, everything which is made. So life must flow through all things.
