# Laetitia Casta

## **Synopsis**

Revealing the infinite variety of the "World's Hottest Woman" (Rolling Stone) She's the hottest French export since Brigitte Bardot. She's graced the runways of Galliano and Gaultier and appeared on hundreds of magazine covers worldwide. And in a world of gaunt, underfed, pale models, she's a bodacious, curvy, voluptuous breath of fresh air. She's Laetitia Casta. Called "the sexiest model" by Details and "the most beautiful woman in the world" by Paris Match, Laetitia Casta is on her way to becoming the supreme supermodel of the decade. Featuring the stunning, revealing, and erotic photography of Ritts and Isserman, Laetitia is filled with the most sensuous photographs ever taken of this modern-day Aphrodite. Complete with accompanying essays on Laetitia's world and her outlook on life, and including previously unpublished photographs and a full-color poster, Laetitia is the sexiest book in bookstores this year. Already a frequent cover girl, Laetitia is the new face of L'Oreal and a featured model for the Victoria's Secret catalog. She has starred in ads for Chanel, Ralph Lauren, Isaac Mizrahi, and several Guess campaigns. She made her screen debut in this year's film Asterix and Obelix, with Gerard Depardieu, and she has appeared in three Sports Illustrated swimsuit issues.

## **Book Information**

Hardcover: 128 pages

Publisher: Studio; First edition. Full number line. edition (September 1, 1999)

## **Customer Reviews**

Great pictures of a beautiful lady

...was born the day before me. I have been stalking her ever since. Until the French High court

judgment, but I was not there to defend myself. Anyway this book sincerely needed to be printed on glossy paper. Images lack pop. The darker midrange of the photos wash out. If the book had offered that, I would have bought two. Laetitia was one of the most flexible models, ever. 50s...90s...she comprised the whole range. It is worth the used price. It is worth the new price.

This book is very well done, would have liked to see more of her editorial work in there. She had plenty of space and maybe didn't need to put such big photos from only a few shoots. I still recommend it as something to learn by on how a model should be handled. The agents aren't the only ones who matter although they think so. It's absolutely the girl as much as the agent. She's the one who has to do the job.

In my opinion, the editorial direction could have been better. The book contains a handful of great images nevertheless.

Laetitia Casta is, of course, a spectacularly beautiful and shapely model, and the photographers represented in the eponymous book are among the best and most fashionable in the world. Alas, the photos are vandalized by the worst reproduction and printing quality in a photo book in recent years. Previews of the book in "Photo" and other magazines carry greatly superior reproductions of the images which here are out of focus and muddy. "Forms", by Patrick Demarchelier, carries several of the same images and a comparison of the two books is utterly humiliating for the dreadful Laetitia. As for the color images -- well, only the mini poster glued to the back cover offers anything worth viewing. Don't buy the book without seeing it first, so you can be sure of what you are -- and are not -- getting.

Great price, arrived in very good condition, and shipped promptly. Thank you.

Item was ripped/torn in 2 places on cover. Item was advertised as very good condition. Something that is in very good condition wouldn't be torn and falling apart.

If you are a true fan of Laetitia Casta, you will really like this book, despite what some naysayers say about the quality of paper and selection of photos - who cares, she's so darn beautiful, it's fine anyway - enjoy it! There are pictures of young Laetitia and her whole family and relatives. I like this page, it shows more of who she is. Go get it, it's well worth the money!
