I bought the book for a niece, whom I am helping to plan her destination wedding. This book offers great cost savings tips, along with some very creative ideas! Many of the ideas I have not seen in other books. I wish there was a book like this when I got married; it would have reduced many hours of planning time for me...

I like how the information is laid out. It provides a well-rounded outlook on what all goes into weddings and the things that you may have to deal with. It is a great source. I really like the creative wedding tips that are throughout the book.

Even though I don't have plans to have a wedding in the immediate future I found this book to be very helpful in terms of travel. The author gives a lot of research and resources for a variety of travel destinations and hidden travel gems. I've added more "must do" places to visit and experience on my bucket list.

bought this for a friend and she is finding it informative. It is a short book, but a good start for planning

Don't waste your money. Superficial and not indepth whatsoever.

I bought this for my daughter when she got engaged. She did not think it was as helpful as she hoped it would be.

Great read! I am in the process of planning a destination wedding and I found this book to be very help.

This book is awesome! My daughter was planning a wedding at a venue that cost \$6000 Just to rent it. When she saw the cover of the book and open it and started reading, she change her mind. She is now planning her destination wedding to Saint Lucia. This book is step by step, easy to read and has great information.
