Customer Reviews

This is a really good collection of Bruno Mars' popular songs (just wish a couple more of my favorites were included). The notations are great, easy to follow. The only reason I took away a star is that in several of these, the intro bars are missing ... they expect one to start playing and singing right away instead of building up with the intro (the way the original songs were meant to be). A little disappointed that I'm having to add those in myself. But overall, great way to start playing and singing along to your favorite Bruno Mars numbers quickly!

Great condition. Love this book.
