All The Buildings In London: That I've Drawn So Far

Synopsis

The follow-up to the hugely popular *All the Buildings in New York*, this is a charmingly illustrated journey through London, one building at a time. *All the Buildings in London* is a love letter to London, told through James Gulliver Hancock's unique and charming drawings of the city's diverse architectural styles and streetscapes. Hancock's offbeat drawing style gives a sense of whimsical and delightful fun to his illustrations, while perfectly capturing each building's architectural details. This unusual combination of the artistic and the technical presents London's cityscape like never before. The book includes such beloved iconic buildings as St. Paul's Cathedral and Buckingham Palace; the latest modern landmarks, such as the Shard and the London Eye; celebrated cultural institutions, such as the British Museum and Tate Modern; and other notable attractions, such as Piccadilly Circus and Trafalgar Square, as well as the bridges and docks along the river Thames. Also featured are the everyday buildings that may not be famous but whose stylishness or eccentricity make up an important part of London and its architectural landscape. Londoners and tourists alike will savor this volume that uniquely celebrates the energy, spirit, and history of one of the greatest cities in the world.

Customer Reviews

"Hancock's illustrations are really pleasing to the eye, deftly capturing various iconic buildings around the city, and often supplying fun trivia tidbits alongside. It's a really enjoyable way to discover or revisit iconic landmarks such as Buckingham Palace, the Shard, Piccadilly Circus, Trafalgar Square, and of course, Big Ben."-TYPO-GRAPHICAL.COM" For those

who love to walk or bike, this is a carry-along delight. Turn off Google Maps. Get lost in the book. Get found in the London you've never seen before. Hancock's quirky, humorous, and artful travelogue is a journey through an illustrator's wonderfully whacky mind." -NeenahPaperBlog.com I love the simple and stylized look that James has used for his drawings. . . [All the Buildings in London] is a wonderful book for sketchbook lovers. I hope to see more in the future." -ParkaBlogs.com

James Gulliver Hancock is an artist and illustrator. His work has been exhibited in galleries worldwide, and he has worked with a wide variety of high-profile clients in advertising and publishing. He is the author of All the Buildings in New York.

Charming set of drawing of building both old and new, quaint and majestic, familiar and never before seen.

This book is beautifully put together. A perfect little escape to London. I have a least 5 friends in mind who would love this book as a gift. A perfect coffee table book, and it's not too big so it won't take up the whole coffee table!

Such lovely memories of a city that was home for me 40 years ago and where I visit frequently - makes me want to go soon! Fabulous images of great buildings!
