Best Sellers Rank: #1,816,284 in Books (See Top 100 in Books) #80 in Books > Travel > Caribbean > Bahamas #970 in Books > Travel > Caribbean > General

Customer Reviews

Very little useful information and no maps. The kindle version did not have a table of contents making it very difficult to use.

Disappointing. Not a single map included (unless you count the pixelated 'sketch' of the outlines of the Bahamas bank islands on page 5, useless). B&W photos without captions. Lists of dive and snorkel sites that are meaningless without associated maps or mileposts, you will have to spend your time on the internet to figure anything out anyway, so just forget this book and do that from the start. Misspellings, a table of contents that has wrong pages, no index, what kind of "guide" is this? You may need a guide to use this guide, it is junk. Most oddly, the book starts out with a lot of detail on Abacos before it goes into a standard "before you go" kind of section which really belongs up

front since things like needing a passport applies to all out islands, not just Abacos. No rhyme or reason here, very amateur. I hoped to find a good book written by someone other than the Frommers type stuff, but this home-published book is not worth buying.

My husband and I are planning our first cruise on our 32' sailboat and new nothing about the islands of the Bahama's. This book is fabulous and very detailed, it helped me in everyway to get our boat ready for our adventure. I highly recommend it!
