Adirondack Park: A Wildlands Quilt (New York State Series)

Synopsis

McMartin focuses on the uniqueness of the forty-four individual tracts that make up the two and a half million acre Forest Preserve within the Adirondack Park, chronicling the preserve's unusual origins, people, politics and economics that created what is now one of the most important wilderness areas in the eastern United States.

Customer Reviews

In *The Adirondack Park* McMartin has aptly likened the various wild forest, wilderness, recreation, and primitive areas to a patchwork quilt, with landscapes connecting to jagged boundaries following rivers and narrow valleys. Recommended "views and visits" give readers an insider's advantage to making the most of any Adirondack expedition. With a storyteller's ease, McMartin provides a brief history and description of each area. She chronicles the preserve's unusual origins, people, politics, and economics that created what is now one of the most important wilderness areas in the eastern United States.

I had typed quilt into the search and this title was among those listed. Being from NY I was curious and asked for more info. At the top of the Table of Contents is the phrase "piecing the quilt" - followed by chapters that I thought were quilt block names. Although there is beautiful photography thru out the book and in hard cover version - it would make a great coffee table book - I had thought

I was ordering a book featuring quilt block patterns about the Adirondacks!
