Customer Reviews

This is ridiculous that I had to PAY to be able to read Patterson's books in the correct order. It's not as if he's gouged me enough by his high prices anyway. This should definitely be free. In fact, it shouldn't even be on the market because it lists the books in the incorrect order and then you have to guess what the real correct order is and but even more of the series. Hmmmm maybe NOT an accident? If these are the correct order, then this is very, very poor writing that the end of the books leave you hanging and then the next one doesn't even refer to where you had to leave off on the first one. I'm done buying Patterson books due to this series. AND due to the expense of such repetitive writing in each book. Rookie writing! Did he really write them or is this series all written by ghost writers? JUNK

Although each book can stand on its own, I like reading series in order as to follow main characters progression.

Great book, can't wait to read the series.

I think this a great series and to read it in chronological is super
