Customer Reviews

It is a very good book, but all I can do is downloaded the sample (it is printed as a book),but when I am trying to buy it it can not open the file (it shows blank pages and write that I deleted an item and downloaded from archived items,which I tried several times but is all the same).I hope that you can fix this book and I am sure to buy it if I can downloaded the whole book not only the sample!

There were an average of 2 cutoffs per page, making it near unreadable. This needs to be fixed. Very badly.
