This book is another riveting page turner by author Blue Saffire. Noah shows how he goes in Beast mode when it comes to the love of his life Rebecca, Bean to everyone else. I love the progression of their story from childhood to adulthood. They were so in love with each other but missed a lot of opportunities to capitalize on their feelings. However once they admitted their true feelings, love knows no bounds with them. Bean shows how she can get in beast mode when it comes to Noah too. This book will make you laugh, cry, holler, and any other emotions that you have. I love how the characters and scenes intertwine with each other from her other books. Her story telling is simply amazing and awesome to read. I would highly recommend getting this book. I love how it sets up the next phase in her next book. Noah and Bean were definitely made for each other, and I was glad to read all about their love story. Congratulations Blue Saffire on another great read. Thanks for sharing your work with us.

Blue's ability to tell a story is amazing. She often says that her characters tell her their own story and it's usually different from the one she has. After reading her books I am starting to believe her. Lol. I've never read one of her books and felt like I read this storyline before. She is a talented author who is greatly appreciated by her fans. Looking forward to the next book.

This book was excellent I like how the author use the characters to go back and tell their love story. The length and quality of the book was more than expected and I didn't notice any grammar errors. The storyline was awesome I love a book that will tell a great story and to see that she covered basic of unanswered questions in part1 was a relief. I'm anxiously waiting on part3 now because I can't wait to read about Toby. I would recommend this book to anyone who loves Alpha dominant

males who also love hard and protects their women.

What a combination. What can I say. Have been waiting patiently for Noah's story and it doesn't disappoint. I know I will be reading this one again. Bean put up with a lot of crap from Josh and at times seemed to naive but it seemed to work in the story. On to the next. As usual, Blue rocks.....

Love, love, loved it! I like how part of this story happens simultaneously with Wyatt and Nellie's story in Brothers Black. We get to read about the history if Noah's and Bean's relationship from childhood. There story is so sweet. Childhood crush grows over time and it is full blown love. Both have used placeholders to stand in, until the true love that they felt for one another could be articulated. This was a very good story

Well let's see. First I have come to love Ms. Saffire books but, Noah and Bean tried my patience a lot. Knowing ear all her life I found it trying when the age appropriate time line came into play they couldn't find their way to ea h other. Ugg!! It should not taken years for that to happen .these were grown folks.getting in each other's way. Also Noah had relationships which never went any where because he loved Bean(Rebecca)Bean lached onto guys that we're stand in's for Noah because she loved him but no one could open their mouth to own it!Sad that left the bodies of old realationship's in the rear that died on the trip to nowhere with those two.Glad the finally got it together and married, that was a while away also but it did happen.Friends to lovers can be tricky .But when she writes the next I will be there. I have a feeling Braxton and Heather is going to drive me to drink when it shows up.Noah was the best boyfriend ever though.

Whew, what a ride this was. Blue Saffire ALWAYS knocks it out the park. And what a unique way to tell their story, as a flashback on their lives as told to Carmen (who I cannot wait to get to know more about). And I am so looking forward to her and Ryan's story. But back to Noah and Bean, they are my new "IT" couple. These two totally ROCK and I miss them already. Glad I one-clicked though so I get to visit them anytime I want.

Brothers Black, just wow. They are the same yet different. They think on the same level, but act out differently. They are awesome alpha males with just as awesome alpha females. I like how all your stories connect to make for one bad family and group of friends. Waiting slightly patiently for the next stories.
