The little settlement that weathered the long, hard winter of 1880-81 is now a growing town. Laura is

growing up, and she goes to her first evening social. Mary is at last able to go to a college for the blind. Best of all, Almanzo Wilder asks permission to walk home from church with Laura. And Laura, now fifteen years old, receives her certificate to teach school.

Laura Ingalls Wilder (1867–1957) was born in a log cabin in the Wisconsin woods. With her family, she pioneered throughout America's heartland during the 1870s and 1880s, finally settling in Dakota Territory. She married Almanzo Wilder in 1885; their only daughter, Rose, was born the following year. The Wilders moved to Rocky Ridge Farm at Mansfield, Missouri, in 1894, where they established a permanent home. After years of farming, Laura wrote the first of her beloved Little House books in 1932. The nine Little House books are international classics. Her writings live on into the twenty-first century as America's quintessential pioneer story. Garth Williams's classic illustrations for the Little House books caused Laura to remark that she "and her folks live again in these pictures." Garth Williams also illustrated Charlotte's Web, Stuart Little, and almost one hundred other books.

This has always been my favorite of the Little House books, probably because the Long Winter is behind them, the family is becoming more affluent, and there's so much happening. I love the cat and mouse fight and being part of the little claim shanty becoming a real house on a real farm. And, of course, I love Laura's new experiences in teaching and romance. If you liked any of the other Little House books, you'll like this one, too.

Not her best book in the series, it seems to go away from the former style of writing that you become accustomed to in the previous books. There is not as much detail of day to day life, instead skipping what seems to be long periods of time.

Just wonderful I never get tired of hearing of what that generation accomplished with perseverance and their values. It should be required reading in all elementary schools.

My 4th grade teacher introduced our class to The Laura Ingalls books in about 1967. My mother enjoyed them too. I recently read this and other Laura Ingalls books to my 96 year old mother before she passed on. Although her eyesight was bad, she enjoyed hearing me read the stories. She grew up in KS so could relate to what Laura described in the books. I highly recommend all Laura Ingalls books.

If the series is read in order, the book is a continuation of a time when people were, for the most part, kind and good to each other, when the family played the part of a complete unit where everyone looked out for everyone else - a better time. Like comfort food is good for the soul, so are the Little House books for the spirit. I love them.

Nicely done, but I wish there weren't so many timeskips between the books of this series.

We love these audiobooks. The CD makes for a great car ride. All the children ages 3-12 love it as well as the adults. It took some getting used to Cherry Jone's voice but after listening to all kinds of audiobooks I find that it takes getting used to anyone's voice. All the books in the series are great, but I will say the last one is shorter which was disappointing though it couldn't be helped. It is also more serious in nature so it might be better to know what you are going to hear before giving to your kiddos. Still would recommend them all.

I love this book, it's nice to have it on my kindle!
