Y.H. Park has won the Korean National Taekwondo Championships seven times, and retired undefeated. In 1988 he was the Coach of the US Olympic Taekwondo Team, which won gold in Seoul. Park is the author of Taekwondo: The Ultimate Reference Guide to the World's Most Popular Martial Art.

Very basic starter book. I got this for a 7 yrs old, found out she learned all this details in next few days. Good as a reference when your kids just starting, but don't buy this book for any advance student who is going to TKD classes more than 6 months or any older student. Pictures are helpful for kids to remember instruction - like correct standing position. Expected a little more material but the book is really thin and don't have much material.

My grandson loved it so much that he took it to his Tae Kwon Do Class to show his instructor, who liked it.

Bought this for my 8 year old to read before starting some classes

The kids liked it.

My grandson who is 9 years old, read the book and learned a lot of moves. He must have enjoyed it a lot, as he is now taking a martial arts class.

To learn all one can about the wonderful art of TKD all resources may be helpful. This book is a good resource for any Martial Artist interested in learning part of where TKD came from and how this art has survived, where it is today, etc., useful information for the TKD Artist of any age. An excellent book to give or read to your budding TKD Artist. Simple to read and great illustrations. I just like this book!!!

Fast and easy transaction. The book offers information that is exactly what we were hoping to get.

Cheap yet works perfectly. Incredible product. Very sturdy. Arrived on time. I enjoy using it. great . send it to my boyfriend , fast and in time,
