What a wonderful tool for parents to use in helping a grieving child by using fantasy to confront reality. Julia Cook has made a difficult task so much easier with her insights and knowledge. Children can readily relate to stories with illustrations and this one makes it so easy to open up discussions about a painful topic. --Helen Fitzgerald, Author of *The Grieving Child* The death of a loved one can have a lasting, major impact on a child due to limited life experiences on which to draw. This storybook by Julia Cook is an excellent resource for people to help children of all ages talk about their feelings and fears, along with providing guidance in answering difficult questions related to death and dying. --Dave Opalewski, Author of *Understanding and Addressing Children's Grief Issues and Confronting Death in the School Family*

Julia Cook is a former teacher and school guidance counselor. She is the recipient of several book awards including the AEP (Association for Educational Publishers) Distinguished Achievement Award. The goal behind Julias books is to actively involve her readers into her creative stories and teach them to become better. Inspirations for her books come from working with children and carefully listening to parents and teachers.

great

It's Julia Cook, I can't say anything bad. This book has helped my children (ages 8 and 10 now) to try and accept / become more comfortable with all of the competing emotions which surround the death of any loved one, wether it's a person or an animal.

this book has lovely illustrations - but the book jumps around, poor transitions, which made me think my book was not glued together in order- no page #s to figure that out - and on top of that- the premise of the 'dad' tree dying to provide a Christmas tree and all the presents etc is really off-putting- and I cannot imagine anyone using this book for children or any age- I do like the idea of grief being like a snowflake- and all the various activities and discussion from is a really good idea and I will go with that- the book does not even go into that at all, just one page related to that-- don't waste your time

sweet

Our children are facing death more and more. This book offers an alternative to talk therapy.

I bought this book for my niece who was having a hard time with accepting death. This book made her comfortable in talking about her feelings and overcoming her fears.

Had planned to use this in therapy w elementary age kids. I don't like the book and dont use t bc it's too abstract, doe st help kids talk about loss. The plot was confusing and not helpful in grief talk. I do however like the workbook! I have adapted the activities over and over to fit individual needs. Definitely recommend the workbook, not the story book though.
