Customer Reviews

Sarah Janssen is the senior editor of The World Almanac® and Book of Facts. She lives in Brooklyn, NY.

An annual must-have! As mentioned in my previous reviews, I've been getting this publication every year for nearly forty years now, and my dad bought for years before that. It the perfect size, filled with interesting, fascinating, and other essential information.

For all you Jeopardy fans, this is the book to get! I love my copy. World's tallest building? Check. Deadliest tornado? Check. Most NHL goals in a season? Done and done. The only gripe I have with the book is the small print. If you have bad eyesight get the hardcover copy instead. It costs more but the type is much larger! Worth the money. Very entertaining book.

I gave this to my son for the holidays and he is enjoying it immensely. It is very thick and has small printing but his eyes are healthy for reading. Lots of colorful diagrams, maps and flags and filled with a wide assortment of information.

I couldn't find a WORLD ALMANAC anywhere in our small town, so I ordered from . I use an almanac occasionally to look up information about all sorts of things, and I like to have one handy.

Chocked full of everything one might need or want to know...a trivia lover's dream. The only downside? The INCREDIBLY SMALL PRINT! This item should come with a standard magnifying glass thrown in. Is paper in short supply these days?

Even with the internet there is still a need for books. This one went to a prisoner who really liked it so take that as an endoresment/

This is a great product! We had problems with the delivery of it, (not being as promised) but the World Almanac is a great resource tool and I would definitely buy it again for myself and as a gift. I am always happy with the book and its contents. I am very happy with that.

Son loves this book. He was 10 when he received this. Very dry reading, but he curls right up to this book & soaks up all the facts. He's had it at least a year now & I still find his nose pressed into it. I would not, however, get him any additional (newer) editions. The facts/stats just don't change enough to warrent a new one.
