Losing Kyler (The Kennedy Boys Book 2)

Synopsis

Condemned to repeat the sins of the past Faye thought losing her parents was the most devastating thing to happen to her, but she was wrong. Her uncle's scandalous revelation has sent her into a tailspin, leaving her questioning her entire existence. Everything she believed is built on a lie. And the one person she shares a passionate, soul-deep connection with can't be there for her. Faye and Ky can't be together. It's forbidden. Though they are determined to avoid replicating their parents' mistakes, caving to their feelings is as tempting as the apple in the Garden of Eden. Ky had sworn off girls until Faye bulldozed her way into his life. Now, she's his whole world, and their forced separation is crushing him. Once his manipulative ex resurfaces he's hell-bent on ruining the Kennedys. He'll do whatever it takes to protect his loved ones including turning his back on the one person he can't live without. Then tragedy strikes and all bets are off. But is it too late? When Faye needs him and he isn't there for her, guilt and hurt threaten to obliterate their love. As they start to rebuild their fractured hearts, another sordid family secret is uncovered, and Faye worries Ky may be lost to her forever. But can you truly lose someone if they don't want to be found? Books in this series: Finding Kyler Losing Kyler Keeping Kyler The Irish Getaway - optional short novel Loving Calvin Saving Brad Please note this series is only recommended to readers age 17+ due to mature content and themes.

Customer Reviews

I received an eARC of this book from the author. This does not affect my opinion of the book or the content of this review.Okay I have to admit something. Losing Kyler by Siobhan Davis blew me away! I'm not usually a fan of YA contemporary, mainly because I loathe drama and teen angst. Knowing this about me, you are probably wondering why I even bothered reading this book. Honestly, it's because I love the author and her other sci-fi series. Siobhan Davis is the master at writing complex characters, heart-stopping action/suspense, and swoon-worthy kisses. Seriously, sometimes a kiss takes a couple of pages worth of a book.that is one heck of a kiss!But I digress, Losing Kyler is written in the same vein as The Royals series by Erin Watt. There is a ton of drama, a whole host of characters with their own, real-life problems, and more twists and turns than your run of the mill soap opera. Despite the teen angst, I found myself thoroughly engrossed. The book picks up right where Finding Kyler left off. So, if like me you've been on pins and needles wanting to know what happens, you get answers fairly quick.Faye is not one of my favorite characters, even though she is the main character and it is told from her perspective. It's not that I don't like her, I do, she's just hard to like, and sometimes a little hard to stomach. She claims to hate drama and tries to stay away from it, yet she seems to always be the center of it and even creates a little herself.And then there is Kyler, the book's namesake. I don't like him. Sorry, it had to be said. He's arrogant and his treatment of Faye is abhorrent. At times he's the best and at other times the worst. I can't understand how she could ever forgive him or be with him. Love is funny like that I guess. Personally I would've kicked him to the curb.Now Brad on the other hand *swoon* Brad is Kyler's best friend and Faye's fake boyfriend so you can guess where this is going. There's a semi-triangle going on but it gets resolved quickly (thankfully, triangles make my eye twitch). Brad is kind and a genuinely good guy. So of course I'm #TeamBrad.Overall Losing Kyler is a fast-paced, engrossing read.

It's like a train wreck that you can't look away from, you just can't stop reading! So why four stars instead of five? If I'm being honest (and I try to be), it's because the first half of the book moves at a slower pace than the second half. It took me almost a week to read the first half, but only one night to read the second. Then there was the drama. While I enjoyed it because Siobhan Davis is the master, I felt it was a bit much. By the time I got to the end, my head was spinning from all the surprise twists. Now that's just my personal opinion, others may not feel that way. If you enjoy YA bordering on New Adult contemporary with shocking drama, I highly recommend you read this series.

This is the continuation of The Kennedy Boys Series and book two of Kyler and Faye's story. This book starts off with a bang when James, Kyler's dad and Faye's uncle, reveals some truths that about Faye and her family. The hits however don't stop for the Kennedy Family and there is drama, lies, secrets, and plenty of revelations. With Faye and Kyler's best friend, Brad, becomes Faye's lifeline in a rapidly changing environment. Faye and Brad become very good friends and pretend to date. This relationship is however not without its own problems when real feelings develop. Faye gradually begins getting closer to each of her cousins during their time of need. This closeness leads to Faye becoming more relaxed and comfortable in her new family environment. Each drama filled moment had a unique way of sucking you in and not letting you go. A lot happens in this book that foreshadows what might possibly happen in later books about Kyler's brothers. This was a great second book and I can't wait to find out in the next one Faye and Kyler's conclusion. If you haven't already read the first book in this Series then you are missing out and should begin there before this book. I voluntarily received an ARC in exchange for a honest review.

"I love you," he whispers in that hypnotic voice I adore.
"It can't be wrong. It just can't be. Not when it feels like this." When I read Finding Kyler, I felt that it was easily going to be the best book I'll have read in 2017. But then I read Losing Kyler, and I was proved so wrong. Holy cow! This book was amazing, it had it all and more! Finding Kyler ended with a major cliffhanger...I mean MAJOR!!! When I started reading Losing Kyler it picked right up where that cliffhanger left off and wow...talk about taking off at the starting gate!!! This book had plenty of angst, lots of twists and turns and even a few "What you talkin' about Willis?" moments!! I was taken by surprise a few times. Through all the Kennedy "craziness" it was very touching to see Faye become so close to the

family and making them her home. I'm being very careful not to say too much, even though I want to tell you ALL about it. But you need to be able to enjoy the book the way I did, going into it knowing nothing. But I will say this, if you enjoyed Finding Kyler, you are going to LOVE this!!! If you haven't read Finding Kyler, what the heck are you waiting for?!!! Go read it now!!! "Losing Kyler is not an option I'm prepared to accept."*I received this book in exchange for an honest review.

I eagerly awaited this book and since there are three in the series I knew that the cliffhanger of the parentage of Faye would be resolved in a manner to keep the spark between her and Kyler alive and back together. Kissing cousins was never so hot and their chemistry is off the charts and I love how they supported each other through the tempest swirling around the Kennedy clan and outside forces that are always tearing at them. Kyler's ex is so conniving and needs to find a new hobby than trying to destroy Kyler's family since she can't have him. The Kennedy family has secrets and family betrayals are tabloid fodder but part of me wants to see Alex divorce James but they do seem to be codependent so maybe they do need each other but they always seem to be at odds. My heart ached for poor Brad who is always on the outside looking in and he needs his happy ending too. Hopefully Faye and Kyler can be there for him once they get their lives under control. Book three should end with a twist or two and I can't wait for the series finale.
