It's a nice book but a little too large and doesn't have the old hymns I expected it to contain. I didn't expect to find Catholic hymns which I already have. big wanted the Protestant church hymns that are a rich part of the American fabric. It doesn't contain what I expected but I can't give it a low rating because it's disappointing to me.

As a piano player, I was looking for more interesting arrangements. I have several hymnals and

found these arrangements to be similar or inferior. Plus, there is less of a selection here than in most hymnals. However, if you do not have a hymnal, and are at an early intermediate skill level this book would be very useful. As for the usefulness for vocals and guitar, I couldn't say.

This hymn sheet music book is quite good for an intermediate / advanced beginner. It contains almost every "old" standard hymn used by the majority of protestant / evangelical churches. I deducted a star only because it's spine-bound, not spiral-bound. That makes it difficult to use on a piano's music stand (having to put other books on either side to hold the pages). I have other books with the spiral binding and it makes a huge difference.

I love that this book has the sheet music for piano and the chords for guitar up above. The lyrics are right there, too. It makes it for easy playing. I also like that the music is usually only on two pages. I don't like turning the page. We use this book at church for the band.

I'm sure this is great for a beginner, but too basic and easy for what I needed, they should show an example piece in the pictures

All the hymns I used to know and enjoy are here in this book. Well worth the price.

Very satisfied

Very good book with wonderful hymns. These are just great.
