Dr Fred's Weather Watch

Synopsis

This perennial favorite is a how-to book for junior meteorologists. Dr. Fred Bortz and Dr. Marshall Shepherd (former NASA meteorologist and former President of the American Meteorological Society) shows kids how to predict the weather in their own backyards - using simple, inexpensive, self-built meteorological instruments that add up to a fully operational weather station. Newly updated (2014) to include additional sources for online research.

Book Information

Lexile Measure: 1100 (What's this?)

Paperback: 158 pages

Publisher: StarWalk Kids Media (June 3, 2014)

Language: English

ISBN-10: 1630834637

ISBN-13: 978-1630834630

Product Dimensions: 7.5 x 0.3 x 9.2 inches

Shipping Weight: 11.2 ounces (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars 2 customer reviews

Best Sellers Rank: #2,653,554 in Books (See Top 100 in Books) #25 in [Books > Teens > Education & Reference > Science & Technology > Earth Science > Weather](#) #124 in [Books > Teens > Education & Reference > Science & Technology > Experiments & Projects](#) #1212 in [Books > Children's Books > Science, Nature & How It Works > Experiments & Projects](#)

Age Range: 12 and up

Grade Level: 7 and up

Customer Reviews

I found this small book clearly written and filled with useful information and do-able hands-on projects. On one recent visit with my grandsons, we together built the barometer and used it to measure atmospheric pressure forecasting a storm. We are looking forward to constructing the remaining instruments to complete our weather station.

I've used this books for years to build a weather station with my classes. Buying it again because I see it is updated with new links and information.
